Chairman Brown Says There'll be Two in Each District

NOT HOSTILE TO TAFT

Safety of Party Is Chief Object for Roosevelt Movement According to Statement.

Columbus, Feb. 3.—The names of two candidates for presidential delegate pledged to the support of Theodore Roosevelt will be placed upon the official ballots in every congressional district of Ohio at the May primaries.

Walter F. Brown, chairman of the Republican state central committee, made the prediction today. In a statement Brown said:

"The activities of the organization in Ohio which already numbers nearly a thousand pledged to effect the nomination and election of Roosevelt, are actuated by no motives of hostility to the president.

"The Roosevelt movement is based upon three principles: First, the people have decided on some other man than Mr. Taft; second, that the Republicans who place party above personal considerations will not compel the people in order to make a change in the presidency, to make a change in the party in control of the national government; third, that the man most favorably considered as a representative standard bearer, by reason of his ability and patriotism, is Theodore Roosevelt.

"It can be accepted beyond any doubt, that while President Roosevelt is by no means seeking the nomination, he will yield to the general popular demand for his nomination."

COUPLE WEDS 2 HOURS AFTER FIRST MEETING

Coshoccon, Feb. 3.—An "ad." in a matrimonial journal, followed by a comparatively short correspondence, resulted in the marriage of Miss Lulu B. Stewart, aged 21, of Coshoccon, and George Pape, aged 24, of Altavista, Kan., within two hours after they had met for the first time.

The ceremony was performed by Squire E. G. Abbott, after which the happy couple boarded a Pennsylvania train on the journey to the Sunflower state, where the groom has a home awaiting.

TONG WAR BREAKS OUT ON COAST

San Francisco, Feb. 3.—Pacific coast cities from San Diego to Vancouver have confronting them today a Chinese tong war. With three men already shot down and the armistice broken, the members and leaders of the Chinese society are preparing to defend themselves and avenge their friends.

Two feuds must be wiped out before the Chinese will lay down their automatic revolvers and permit peace to be restored. At San Jose, Lee Kee, a member of the Hip Sing tong, is dead and another member of a rival tong is under arrest.

This feud has whisked away the peaceful efforts of the Chinese members of the Six Companies, who exert a leadership over the Chinese colonies.

In San Francisco, when Kee's death became known, two Chinese were shot by fellow tong members of Kee and the brethren of these two men have taken up arms and vow vengeance.

BRIDGE DYNAMITED; MANY WERE KILLED

London, Feb. 3.—A railroad bridge was blown up today near Mukden, Manchuria, a train wrecked and many passengers killed and wounded. Rebels or bandits are believed to be responsible for the outrage, which had been carefully planned. The bridge viaduct was undermined and charges of dynamite placed in position so that when the train reached the center of the bridge the fuse was fired and the structure was blown up.

COLD WAVE IS COMING

Washington, Feb. 3.—A cold wave with the temperature at 20 degrees below zero and even lower at some points, is following the western storm which just passed. The cold wave today extends over the Mississippi valley and frosts are reported as far south as Jacksonville, Fla. Wisconsin reports temperature of 29 degrees below.

Word received by Newark people today from relatives at Thomasville, Ga., states that the temperature is very low there. Northern people were compelled to sit by the fireside, while the chilly wind blew outside.

TO LIMIT SCOPE OF REVISION

President Bigelow Would Submit But Ten Amendments

MEETS WITH OPPOSITION

The Initiative and Referendum Threatened With Defeat—Contest on Taxation Proposal.

Columbus, Feb. 3.—Delegates to the constitutional convention remaining here today predict defeat for the Bigelow plan of shortening the work of the convention. Pettit of Adams county said: "This is not Mr. Bigelow's convention, and I have assurance that his resolution, when introduced, will go down much as others along the same principle have done."

Eby of Preble county stated that the Bigelow plan was inspired with a view to putting through the initiative and referendum on a low percentage basis. "If the Bigelow resolution," said Eby, "should happen to receive enough votes for its adoption, it would result in vote trading between the low percentage on the initiative and referendum people and the liquor license people."

The Preble county delegate explained that out of the vast number of proposals that had been referred to committees, 60 or 70 would be favorably reported to the convention. All of these proposals would have a large support and the supporters of each would fight to have them adopted in the new charter. If the Bigelow plan was adopted the convention could adopt all of the 60 or 70 proposals and the Bigelow provision would make such an act null and void, except in the case of the four receiving the highest vote, which Bigelow could swing to his measures.

Columbus, Feb. 3.—Opposition is already manifesting itself to the newly broached second effort of President Herbert Bigelow to limit the scope of the revision of the state charter by the constitutional convention.

Briefly, President Bigelow proposes to prescribe the convention shall submit but ten amendments to the constitution. Six of these he has selected and announced, and the other four are to be secured through a popularity contest.

It is an interesting high light that the taxation reform proposal is not included in the six which he has indicated are not to be decided on at the referendum which he has suggested.

The things he believes should be taken without question are the initiative and referendum, judicial reform, liquor traffic, home rule for cities, good roads and method of amending the constitution. Farther, these 13 amendments were to be submitted to the people separately from the old constitution.

The same arguments are advanced to support this reiterated proposition, for it is not new, that were put forth when the convention defeated the first effort by a 3 to 1 vote. A number of the delegates who remained over following the adjournment have announced that they will fight the Bigelow thing from the very moment it is introduced.

Delegates who favor the initiative and referendum on a liberal plan declared today that the proposition was threatened with defeat at the hands of supporters of the principle. This was explained as due to the fact that while probably two-thirds of the delegates favor the initiative and referendum, more than half of this number have individual ideas as to its extent, which they promise stoutly to defend.

Robert Crosser, chairman of the initiative and referendum committee, declared that if the principle was defeated it would be because of differences upon details held by friends of the proposition. Halfhill of Allen county, was recognized by the committee chairman as the leader of the opponents to the entire principle.

It was stated however, that the opponents to the entire principle would be few in numbers, but would have a powerful influence in convention deliberations and final consideration of the question because of the differences as to details of the plan which would be contended for by other delegates.

Solomon Johnson of Williams county, declared today that wide differences of opinion as to the limitations of the initiative and referendum would perhaps defeat the whole proposition.

Crosser stated that in his opinion the plan to be of any advantage to the people should be liberal, so that it could easily be brought into use.

WHICH ONE TELLS THE TRUTH?

L.D. BRANDEIS JUDGE E.H. GARY

Judge Gary, head of the United States steel corporation, told the Stanley investigating committee at Washington, while appearing as a witness, that pay and living conditions of the corporation's employees had been materially bettered in recent years. Louis D. Brandeis, Boston attorney, who has become famous by his ardent in the cause of the people against the powerful interests he regards as oppressive, had a different story to tell to the committee.

"Sixty-five per cent of the employees of the steel corporation in the Pittsburgh district," he declared, "earn less than the average cost of subsistence of the average family in that city. They live in abject misery."

His plan was for government direct by the people.

Eby of Preble county declared he was in favor of the initiative and referendum, but would insist that it be limited so that it could not be brought into action upon slight cause. He declared that as a means of saving the state large expenses in holding elections, the per cent of signers of petitions should be made large.

Johnson stated that he favored 25 per cent of qualified electors, but he would vote for a per cent slightly less to prevent the defeat of the entire proposition.

Delegates have begun lining up for the contest in the convention over the proposition to classify property for taxation. The former delegates, with the support of the state, tax commission, started actively to organize an opposition movement. Many influential tax reform advocates have asserted that they will support the proposition.

H. G. Reddington of Lorain county, declared in favor of classification and suggested in particular as a remedy for the existing difficulty in getting personal property on the tax duplicate that all banks paying in—

OFFICER HAS TROUBLE WITH TEAM OWNER

Charles Deiminger, a teamster, was arrested Friday night by Special Officer Joe Moser at Eleventh and West Main streets, on a charge of allowing his team to stand without being blanketed. Deiminger was arrested in the saloon at Buehler's corner, his team being found standing hitched at the curb.

The arrest of Deiminger resulted in considerable excitement, the driver and the officer coming to blows before the matter was settled. Deiminger protested that the team had not been standing long and that he was waiting until a nearby blacksmith finished shoeing a horse so he could pay a bill which he had contracted at the shop.

In the argument the fellow Deiminger was struck by the officer. Finally the police department was notified and the patrol wagon took Deiminger to the police station, humane Officer Wylarch being called into the case.

When Deiminger told his story in police court Saturday morning the charge against him was dismissed, the mayor accepting his story that the team had not been standing a half hour. It is claimed by the police that Deiminger was not intoxicated.

PROBE DEATH OF 4 PERSONS

Lawrence, Mass., Feb. 3.—The state and local police who are investigating the murder of four persons whose bodies were found yesterday in an abandoned house, today discovered that one of the victims had drawn \$500 from a local bank several days ago. TROUBLES OF FORMER OFFICIAL

Ex-State Dairy and Food Commissioner Blackburn Indicted

GIVES BOND OF \$10,000

Alleged to Have Disposed of Securities in Violation of Federal Banking Laws.

Columbus, Feb. 3.—Jos. E. Blackburn, former state dairy and food commissioner, promoter of banks in Columbus, Cincinnati, Philadelphia and elsewhere, will answer Monday to a charge of misapplication of bank funds, in violation of the federal banking laws, agreeable to a federal indictment returned against him in New York. He was arrested Thursday and gave bond for his appearance in the sum of \$10,000.

The indictment is one of several that have been the result of the failure of the Audubon National Bank at Broadway and One Hundred and Fifty-third street, New York. Local friends and associates of Mr. Blackburn said yesterday they felt convinced that the indictment was either the result of misunderstanding or malice, and that in either event he speedily would be cleared by a trial.

The bank failed last July. David S. Mills, its president, was arrested last summer at the instance of Charles A. Hanna, national bank examiner, on a charge of misapplication of funds. Jointly indicted with Mr. Blackburn was Charles Ridgeway, New York attorney, who was the president of the bank.

The grand jury returned two indictments this week, one against Messrs. Mills and Blackburn, and the other against Messrs. Mills, Blackburn and Ridgeway, charging all with misapplication of funds. Mr. Mills is already under \$25,000 bail. All three men will appear in the district court Monday to plead.

The transaction which led to these new indictments had to do with the Keystone Guard Insurance Company, a fraternal organization of Athens, Pa. According to Assistant United States District Attorney Levy, Mr. Blackburn, in 1910, found that he could get control of this institution by paying to the nine directors \$100,000 on condition that they would not stand for re-election, and that he, Messrs. Mills and Ridgeway, should be placed on the board. The company had securities of the value of \$200,000, and the object of the defendants, Mr. Levy asserts, was to obtain possession of these.

To carry out this scheme, Mr. Levy alleges, Mr. Mills made loans of \$25,000 each to the stenographer and auditor of the Audubon Bank. With this \$50,000 Messrs. Mills, Blackburn and Ridgeway went to Athens and there on July 8, 1910, paid \$25,000 to five directors and \$25,000 to the other four.

Then three of the directors handed to Mr. Ridgeway \$100,000 worth of the institution's securities for a consideration of \$1, according to Mr. Levy.

Mr. Ridgeway took these securities to New York, the prosecution asserts, and sold part of them. Some of the proceeds were used to make good the loans from the Audubon Bank and Messrs. Mills, Blackburn and Ridgeway are charged with having divided \$17,000. Then the rest of the securities were disposed of, and the balance of the \$100,000 promised to the Keystone Guard directors was paid to them, according to the assistant district attorney.

Mr. Levy said that only about one-half of the \$200,000 worth of the Keystone Guard Association securities is left and that a receiver and trustee for that company have been appointed.

Several of its old directors are now under indictment at Athens. The indictment against Messrs. Mills, Ridgeway and Blackburn contains six counts, all of which refer to this transaction.

Mr. Blackburn has an office in the Outlook building with Walter J. Felton, with whom he is interested in big land and timber transactions in San Domingo. Mr. Felton said yesterday that he had no personal knowledge of the New York transactions, but that the news of the arrest of Mr. Blackburn came as a surprise and a shock to him and that he could not believe other than a mistake had been made.

MEMBERSHIP COMMITTEE NEWARK BOARD OF TRADE TO WORK NEXT TUESDAY

Beginning at 8:30 a. m. next Tuesday, February 6, 1912, forty well known Newark men will conduct a snappy one day campaign in the interest of Greater Newark.

For the past week the newspapers have published the Pancoast Sledge Hammer Talks and much editorial matter in the interest of this cause. The work accomplished by the Board of Trade in 1911 and what it hopes to do in 1912 have been recited. It now remains for the committee to go before the people and by getting a big, strong membership, start the movement that will get results.

Please remember that the time of these men is valuable and that they are working for you and for Newark. When you are asked to sign a membership card do not hesitate. If you have been a Mr. Grouch, change your name next Tuesday. Be pleasant, sign cheerfully and thank the committee. If you are missed it will not be the committee's fault. In that event sign a card anyway and mail it.

The membership committee consists of the following named men:

Messrs. Frank L. Beggs, E. M. Baugher, Carl Norpell, W. H. Macey, H. L. Montgomery, W. C. Metz, W. C. Wells, J. E. Irwin, Wm. M. Morgan, E. Cary Norris, Charles L. Flory, F. M. Black, R. W. FRANK G. WARDEN INTERESTED WITH WATKINS IN NEWARK CLUB

Official Announcement of This Fact Is Expected Next Week When Owner Watkins and Mr. Warden Will Both Be in the City—Pittsburg Also Interested in Success of Newark Team.

It became public today that Capt. Frank G. Warden of the Warden Hotel, will head the organization that will operate the Newark club in the Ohio State League for the season of 1912.

It was learned from an authoritative source that Mr. Warden and Owner Watkins will be in Newark in a few days, probably next week, when the announcement will be made officially.

It has been hinted for several weeks that certain Newark parties would be associated with Mr. Watkins in the operation of the club. In fact, these rumors have been in circulation ever since Mr. Watkins first visit to Newark early in January.

However, no definite information could be secured until today, when it became known that the rumors were founded on facts. It was said that Mr. Warden would be at the head of the operating company and that he was financially interested in the club.

This will be interesting information for Newark fans. While no one doubted the ability of Owner Watkins or feared for the financial backing of the club, it is comforting to know that Newark men were sufficiently interested in baseball affairs in Newark to unite with outside people in the establishing of the club here.

This fact, with certain other conditions, places the baseball club in Newark on a foundation such as has never enjoyed before.

Mr. Watkins while here in January, in conversation with Newark people, intimated that Pittsburg was interested in the success of both the Springfield and Newark clubs.

It is stated that big league managers have come to realize that the time is rapidly approaching when there will be no more fancy prices paid for the services of any player. Too many times these investments have proven more or less a failure.

To get around this, many of the major leagues have become interested in several minor league clubs, with a view of educating their players in the various classes of baseball.

This plan has been more or less in vogue for several years, but it is rapidly becoming established on more substantial basis. To localize the idea, players in whose development Pittsburg is interested will be sold to Springfield, Newark or Indianapolis, depending upon the extent of their ability, and advanced in the various classes as rapidly as they show class enough.

By the time they have been seasoned in these clubs, they are ready for advancement to the major league club.

Already, this season Pittsburg has turned a large number of valuable players over to the Indianapolis and Springfield clubs. These players were secured either by draft or purchase, but are not considered quite ripe enough for the Pirates. Hence they are turned over to the minors for further training.

Columbus last season controlled both the Lima and Akron clubs. Several times during the season the Senators found it convenient to be able to "purchase" players from one or the other of these clubs to strengthen the Association club when players were out of uniform because of injuries or sickness.

The plan is feasible and has been worked with much success. It has never been tried on a scale of such magnitude as in the present case, but it will no doubt prove highly successful.

It is known that the majors do not hope to make any great amount of money in the operation of the minor league. If they break even they are satisfied. They get their profits from the education of players for the big clubs.

MOGUL FANS CONTRIBUTE \$25 FRIDAY

The Zanesville directors are very much discouraged. Yesterday the committee worked hard and succeeded in collecting but \$25. At this rate the fund will be completed about April.

Zanesville fans have been pleaded with day and night for the past three or four weeks, and while they are anxious to see the city remain in Central League baseball circles, they hesitate to let loose of the coin.

The chances are against the completion of the fund in the time allotted, Feb. 7.

ECZEMA
(Also Called Tetter, Salt Rheum, Pruritus, Miliaria, Weeping Skin, etc.)
ECZEMA CAN BE CURED TO STAY, and when I say cured, I mean just what I say—CURED—E-C-D, and not merely patched over for a time, to return worse than before. Remember I make this broad statement after putting ten years of my time on this one disease and handling in the mean-time a quarter of a million cases of this dreadful skin trouble. Now I can assure you all you have used, nor how many doctors have told you that you could not be cured. All I ask is just a chance to show you what I know what I am talking about. If you will write me TODAY, I will send you a FREE TRIAL of my mild, soothing, guaranteed cure that will convince you more in a day than I or anyone else could in a month's time. If you are disgusted and discouraged, I dare you to give me a chance to prove my claims. By writing me today you will enjoy more real comfort than you had ever thought this world holds for you. Just try it and you will see and realize the truth.

Dr. J. E. Canaday, 421 Park Square, Seattle, Wa., References: Third National Bank, Seattle, Wash. D. C. Could you do a better act than to send this notice to some poor sufferer of Eczema?

Young Men or Young Women, if you are thinking of taking a Business Course, you should attend the Big School, where you will find scores of young men and women studying Bookkeeping, Shorthand, Typewriting, Banks, Real Estate and Insurance Work, Salesmanship, Advertisement Writing, Duplicating and Mimeographing. Where will I get this course? Why, at the Bliss College, of course.

HIGH SCHOOL NOTES
The next number on our lecture course will be given next Monday evening when L. B. Wickersham will give "When Chickens Come Home to Roost."

Margaret Stahl, who is to appear on the lecture course March 25, has been asked to give "The Servant in the House." This is one of the greatest plays of the age.

The pupils are anticipating the pleasure of hearing Dr. Fess give his "Lincoln Lecture" next week. This lecture will be given next Friday at 8 o'clock.

A high school had an average attendance of 97 per cent for the last month. Good attendance means good work.

At present there are about 300 studying languages. There are 150 in the German classes, 110 in Latin and 30 in French.

New fire apparatus was added to our already efficient supply of work. Seven new pieces of hose were purchased and placed in the hall. A fire brigade is to be formed soon. This brigade will be stationed near the hose in all fire drills, with instructions what to do in case of fire!

The Thalian play, "Miss Fearless & Co.," which was given some time ago, was a financial success. About \$70 were realized.

Clinton Gregg, a high school pupil, had the misfortune to break his leg while coasting.

The chapel exercises were conducted Wednesday morning by Rev. Cosgrove. After being introduced by Supt. Hawkins, Mr. E. P. Childs, former principal of Newark high school, addressed the pupils. Rev. Hazlett of Bellaire also gave a short talk.

Those present at chapel Wednesday besides the speakers were Mrs. E. P. Childs, Mrs. Thomas H. Cosgrove, Miss Edith Mackay, Mrs. L. P. Franklin, Mrs. Ned Miller and Misses Helen and Alice Childs.

As usual, the basketball game with Zanesville last night was postponed. Zanesville has been having trouble with the student body, and for that reason asked that the game be postponed. We have been having a great deal of bad luck with the schedule this year, through no fault of our own. Instead of the regularly scheduled game last night, an inter-school game was played between the Juniors and Sophomores.

WHERE THEY ARE NOW

Readers are invited to contribute to this department, which is a valuable and interesting feature. Write all proper names carefully.

TO OUT-OF-TOWN SUBSCRIBERS—When you have finished reading, the Advocate, kindly hand it to some friend, manufacturer, or business man who might be interested in Newark. No matter where you live or what you are doing, you can often say a word which will be a big boost for your HOME TOWN. Newark is going forward, but every little push from its outside friends will make its progress more rapid.

John B. (Shorty) Gibson, a well known job compositor, is at present in a large job office at Newark, N. J., at 181 North Fifth street.

Will Warner, who formerly lived in Newark, is chief clerk of the treasury department at Washington, D. C., a very important and responsible position. Most of the equipment and supplies of the department are purchased through Mr. Warner.

James P. Dodson, a former Newarkite, is a watchman in the Army and Navy Building, Washington, D. C., which is one of the largest buildings used by the government in the world. Mr. Dodson has been in Washington about 20 years.

Hon. George Ide, who formerly was a resident of Newark and represented this senatorial district in the state legislature, is now a permanent resident of Washington. Until recently he has been employed in the bureau of internal revenue, but on account of ill health resigned this position.

Corry M. Stadden has for years been at Washington, with offices in the Post Building. He is a correspondent for the New Orleans Picayune and Newark Advocate and is also engaged in the practice of law. In the past few years Mr. Stadden has done important work for the Nicaraguan legation and has found time to write a number of good magazine articles.

LITTLE BENNY'S NOTE BOOK

Mersey, I almost forgot, sed ma this mornin' aftir pop had went. This is yure fathin's birthday and I'll have to get him sumthin' to surprise him. Wat awn erth shall I get him, she sed.

"My don't you get him a wile kandy he can eat, Ladd, and ma sed. You mean a wile kandy you can get. I no wat I'll get him, she sed, seegars, that's the thing.

Pops got a books of seegars, I sed, I no he has, but there cheep looking things and may be if I take them down town and pay a little moar munny I can eckchange them for thing fine.

"So ma rapped up the seegars and I went down town with her, and we went to a seegar store, and ma sed to the man, I saw sum nice looking seegars with gold bands awn them in the windo. If I give you these seegars without any bands awn them how much will you charge me for the wuns in the windo.

The man took pops seegars and red the fittin' awn the books and sed, Awa special indusemint madum, and because it is you, not any wile I not charge you nothin', but I will take this beer books of seegars and give you the wuns in the windo with the gold bands awn them and 50 sents in the bargain.

Thats verry nice of you, Im sure, sed ma, and the man sed, Not at awl, and rapped up the seegars with the gold bands awn them.

Wen we got hoam agen ma fixed the seegars so the gold bands awl showed and put them awn the tabil in the settin' room, ware pops seegars was befoar ma took them to have them eckchanged.

Aftir supper pop sed, Now for a nise smook, and retched out to take a seegar without looking at them and wen he felt the gold band he looked at it and sed, Help, whos bin putting awl this truck in my seegar books, and ma sed, I have, sillie. Its yure birthday and I got these seegars to surprise you. You forgot yure own birthday, didnt you deer.

Yes, sed pop, but wares my own seegars.

I eckchanged them for these, sed ma, not wun of them, had a gold band awn. Lor, she sed, it was Florer Fno awn evry wun of these. So, it duz, sed, pop, I kumpetly overlooked that, I dont suppose thares a seegar in the books that dont say Florer Fno on it.

No, sed ma, evry wun ses it.

I dont think Ill smook tonite, sed pop, I want to take this books down to the office to sho the felloes befoar I smook any out of it. Which he did, and wen he cam hoam agen today he didnt have the seegars and he told ma that a big black man had held him up, pointing a pistil at him and awl, and wen the black man saw the seegars with the gold bands, he was so glad he didnt even search pops pockets, only jest grabbed the seegars and ran like anything.

THE LODGES

Odd Fellows. The Itsekah lodge sprung a surprise party on Mrs. Battie Dunlap Monday evening. Fifteen were present and light refreshments were served. All had a jolly good time. Several beautiful tokens of remembrance were presented. Mrs. Dunlap, Utica News Herald.

After the regular business session of Myrtle lodge, I. O. O. F. of Granville on Monday evening, Deputy Noble, Grand J. H. Jones installed the following officers:

Samuel Belt, N. G.
Wm. Smoke, V. G.
John DeBow, Jtee. Secretary.
Henry Welsh, Fin. Secretary.
Edw. D. King, Treasurer.
D. E. Curtis, Trustee.
Wm. Sanford, Inner Guard.
Stiles Sharp, Outer Guard.

Newark lodge, 623 met in regular session Monday evening.

The initiatory degree was conferred on two candidates. On Monday evening, Feb. 5, we will confer the first degree. We have three candidates for this degree.

The evening of Feb. 19, there will be held under the auspices of Newark lodge, union meeting of subordinate lodges of Licking county for the purpose of giving the members of the lodges in the vicinity of Newark an opportunity to meet Grand Scribe F. C. Garrett of the grand encampment of Ohio.

We hope to have with us also Grand Patriarch Geo. W. Ruvel, but this is not as yet an assured fact.

The Grand Scribe is pre-eminently the orator and expounder of encampment. Odd-Fellowship in Ohio. We trust that all subordinate lodge members especially will be present for this meeting is for them as well as encampment members. An opportunity like this comes but once in a great while. Don't forget the date, Feb. 19.

Grand Patriarch George W. Ruvel, the highest officer of encampment odd-fellowship in Ohio, was the guest of representation to the grand encampment Louis Spees, Sunday, Jan. 28.

Invitations were telephoned as many encampment members as could be summoned in the short time allowed and twenty patriachs met the Grand Patriarch at the home of Brother Spees. An informal meeting was held and encampment matters discussed with the "one who knows how and does things."

After spending a pleasant and highly profitable evening the patriachs bid the Grand Patriarch and the hospitable host a good night and departed with the firm conviction that they had come in contact with a "live wire."

At Olive Encampment met in regu-

lar session Thursday evening, Feb. 1. The newly elected officers were installed and assumed the duties of their respective offices. Several applications for admission were received.

Canton Olive, 90, met in regular session Friday evening. The newly elected officers were installed. This branch of the order will no doubt acquire a class from the newly admitted encampment members.

The official history of Odd-Fellowship, written by sovereign and grand lodge officers and the only one ever made the official history of odd-fellowship by the sovereign grand lodge is just issued. For particulars communicate with Recording Secretary of Newark lodge.

Roland Lodge, No. 305.

At the regular meeting of Roland Lodge last Tuesday evening the Page rank was conferred on two candidates and the regular business of the lodge transacted, followed by a smoker. The largest number of members for several months was present and the degree team was never in better form and wearing the new robes for the first time. Nearly every seat in the hall was filled and much enthusiasm was displayed by the members. Five applications for membership were received and referred to committee. President Schmidt of the Pythian Castle Co. favored the "boys" with a short talk on the proposed plans of the company. He was followed by several other brothers along the same line. Cigars were introduced by the entertainment committee, and a very enjoyable social session followed. On next Tuesday night the Page and Esquire ranks will be conferred, and it is very necessary that every member of the team be present, as well as every other member. There will also be something very interesting in a business way, and you should be one of the members to hold down a seat. Four prominent business men of the city will be given the Esquire rank and a "dandy" good fraternal time will be in store for those who attend. Let us see you there.

Knights of Pythias.

Over at Johnstown, the Knights of Pythias are to have band all their own. Mr. Noddermyer will be the instructor. There will be at least twenty pieces in the band, and perhaps a larger number. The lodge has voted to give the boys a reasonable number of lessons.

At the meeting of White Cross lodge, Knights of Pythias, of Johnstown, held on Thursday night, there was work in

both the Page and Esquire ranks, with four candidates for the second rank.

K. O. T. M.

Ostagon Tent, No. 132, K. O. T. M. will meet in regular review on Wednesday night, Feb. 7, and a good attendance is desired. The new by-laws will be read for the first time, and there will be other matters which you are interested in that will come up before the review.

OBITUARY

JOHN R. KINNEY.

John R. Kinney died at his home in Columbus Friday night at 11 o'clock. The body was brought here Saturday afternoon and taken to the home of his sister, Mrs. E. Galloway, 22 Pine street, where the funeral will be held Monday afternoon at 2 o'clock. Burial in Cedar Hill cemetery.

Besides the wife, the deceased leaves one brother, C. L. V. Galloway, and four sisters, Mrs. Chris. Stienbaugh, Mrs. George W. Taylor and Mrs. E. Galloway, all of Newark, and Mrs. William H. Green of Lincoln, Neb.

WILLIAM FULK.

William Fulk was born and raised in Licking county. He died at his home in Franklin township, Jan. 16, 1912, paralysis being the cause of his death. He was married to Eliza Snelling, Aug. 17, 1866. To that union were born four sons and five daughters, one son dying in infancy. He leaves to mourn his death an aged widow, three sons and five daughters, one sister, one brother, and a host of friends and relatives. He was a good, kind father in his home, a kind neighbor always ready to help anybody. In his last years of life he put his trust in God. If he had lived until June 7 he would have been aged 69 years, 7 months and some days.

Father, we are sad and lonely. Here thy loss we deeply feel. But we know we have the assurance.

That God doeth all things well.

FUNERAL OF JOHN JACOBS.

The funeral services over the remains of John Jacobs, who died on Thursday morning, were held at the Methodist church, in the West End, Saturday afternoon at 2 o'clock, and the interment was made in Cedar Hill cemetery.

FUNERAL OF C. L. STURGEON.

The funeral services over the remains of the late Clifford L. Sturgeon, who died at Mt. Carmel Hospital, Columbus, Thursday night, will be held at the home, corner of North Fifth and Locust streets, on Sunday afternoon at 1:30 o'clock, conducted by Rev. T. A. Cosgrove, pastor of the Second Presbyterian church, and the interment will be made in Cedar Hill cemetery.

FUNERAL OF MRS. H. O. UPHAM.

The body of Mrs. Hannah O. Upham, who died in Ashville, N. C., where she had been for some time for the benefit of her health, arrived here Friday evening at 6:50 o'clock over the B. & O. railroad, and was taken to the home of her mother, Mrs. S. M. Hunter, in Buena Vista street, where the funeral services were held Saturday afternoon, conducted by Rev. L. E. Franklin, rector of Trinity Episcopal church. The attendance of relatives and friends was very large. The interment was made in Cedar Hill cemetery.

CARD OF THANKS.

I wish to thank the neighbors and friends for their kindness and sympathy during the sickness and death of my wife, also for the floral offerings.

—Mr. Vera Kelley.

CARD OF THANKS.

We thank the friends and neighbors for their kindness during the sickness and death of our father and for the beautiful flowers. We thank Rev. J. R. Tibbles for his kind words and sympathy. Mother and Children.

Now, Tell Us— Aren't You Pleased?

We are prepared to give away 300,000 cans of Every Day Evaporated Milk in this city and nearby towns.

It looks as if our estimate of the quantity of milk required for the grand free distribution yesterday and today is none too large,—for the response of the people is prompt, cordial and expressive of a degree of confidence in us that was gratifying indeed.

We sincerely hope that every family in this great district secures the can of milk free which their grocer is prepared to give them.

If you have not done so already, cut the free coupon from yesterday's paper, take it to your grocer before the store closes tonight and get a can of milk free.

Those of you who have tried Every Day Evaporated Milk now know that we did not exaggerate a particle when we told you how good it was.

Those of you who have not yet used our milk will agree we told the truth, and nothing but the truth, about our milk as soon as you try it.

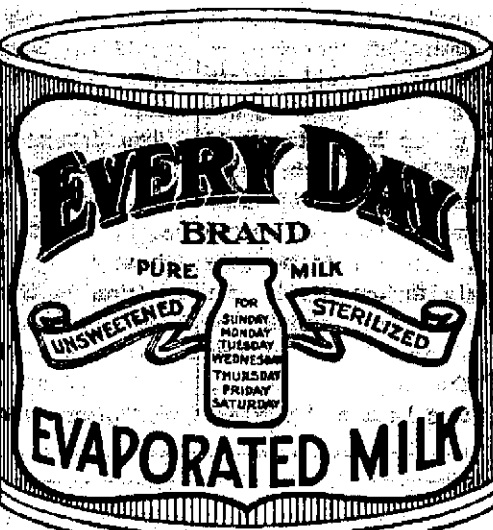

Every Day Evaporated Milk

Unsweetered — Sterilized

is pure, unadulterated milk obtained from healthy cows, evaporated and sterilized. It should be used every day in place of fluid milk or cream for culinary purposes and infant feeding, as it assures absolute cleanliness, purity, freedom from germ life, richness, and a flavor not equaled by any other milk.

Were not the members of your family pleased and delighted to find an evaporated milk that had absolutely none of the strong taste and smell found in most evaporated milks? The total absence of any unpleasant odor or taste marks Every Day Evaporated Milk as positively the best produced anywhere in the world.

- For Coffee and Cocoa** use two or three teaspoonsful Every Day Milk to the cup. Its advantage over cream is that you do not have to add so much liquid as to weaken the true coffee or cocoa flavor, and at the same time you have the delightful "creamy" taste so much desired.
- A Relishing Drink** use two or three teaspoonsful Every Day Milk diluted with a few spoonfuls of water.
- A Fine Cream Gravy** is made by adding a few spoonfuls Every Day Milk to chicken, veal or steak gravy.
- For Cereals, Fruits or Custards** use Every Day Milk diluted to taste. Many persons prefer it to cream.
- Butter is Saved** by adding a few spoonfuls Every Day Milk slightly diluted with hot water to making potatoes.
- For Delicious Milk Toast** use Every Day Milk diluted with an equal part of water.
- Cream Cheese** is made rich and delicious by beating into it a few tablespoonfuls of Every Day Milk.

Remember

that Every Day Evaporated Milk can be satisfactorily used for every culinary and dietetic purpose for which good wholesome milk is required, and it also furnishes a most excellent substitute for cream. It excels in richness and flavor.

HEALTH HINT FOR TODAY.

Resting the Heart at Night.
The organs of the body should be considered, and no excessive work should be given to the heart or digestive organs before retiring to rest. High pillows lead to an increase in the heart's force at a time when it should have the lightest work. Very low pillows may cause headaches and even sleeplessness through an excess of blood to the brain. Heavy late suppers are very unwise, but a light meal, followed by such moderate exercise as a short walk, is generally conducive to sound sleep. The light meal causes a withdrawal of blood from the head into the stomach area and the body generally. The body is therefore warmed, and this is very important.

Mrs. Grover Cleveland, whose husband, the late President Cleveland, signed the original bill providing for the creation of national forests, has just been elected a life member of the American Forestry Association.

Secretary Meyer shows that the Government could readily save enough money to carry out the two-battleships-a-year program by abolishing useless navy yards. In ten years the battleships would be ready to go to the scrap pile. Why not abolish both the useless navy yards and the costly battleships at one economic sweep? There is no sound reason why the United States should join in the mad race of European nations for the maintenance of sea power. It will become sufficiently odious when the battleships reach the junk piles.

PROPOSED COUNTY LIBRARY.

In another column of this paper appears a communication from Charles W. Montgomery, chairman of the Board of Trustees of the Newark City Library. It should be read by every man and every woman in Licking county as it points the way to the establishment in this county of a permanent public library that will be of direct and inestimable value to all and no burden to any one.

If this were a proposition to give to Newark a library at the expense of the county, there would be occasion for conflict from the rural districts, but it is a County Library that is proposed—not a Library to which the county must come but a Library that goes to every township in the county. It will give to Brownsville, to Fallsburg, to Utica, Homer, Croton, Kirkersville—to every section of the county a real, a valuable Library of its own with headquarters or the Central Library in Newark. The plan means that thousands of books would be distributed to these branches and exchanged at stated intervals for other books at the Central library.

Today far too many homes have no good books. Under the proposed plan every home, no matter how humble, can have an abundance of good literature for the asking. Does any one question the value of such an institution?

A County Library can be established by a low tax rate—a rate that means a cost of ten cents for every one thousand dollars worth of taxable property. Even the heaviest taxpayer would not feel it. Even if he should, how could the money be expended to better advantage?

Under the arrangement proposed,

Newark would pay the greater part of the cost and in addition Newark would furnish the site and provide a way for the cost of construction. The tax would go to the purchase of books and maintenance of the Library.

The Licking County Commissioners are now considering the proposition. Many have already urged the commissioners to endorse the idea, but many have done nothing. A few are objecting to the proposition either because of lack of knowledge of its provisions or because they are constitutionally opposed to progress. There will be no public County Library unless the people show to the Commissioners that it is wanted. If you want this Library write to the Commissioners, Messrs. George H. Taverner, S. T. Tatham and Joseph E. Brownfield. Urge them to vote for a County Library. Tell them that it is needed and that their approval will meet with the endorsement of the thinking people, the people who have the best interests of the county at heart and the people who pay the most taxes.

It is especially desired that people living in the townships and villages write or talk with the Commissioners. The impression prevails to some extent that this Library is for Newark, but such is not the case. It will be of just as much, in fact of more value, to the villages and townships than it will be to Newark, as the city already has a library of fair size, while many of the country precincts have none at all.

Read Mr. Montgomery's communication. If you want more information call upon or write C. W. Montgomery, care Fitzgibbon & Montgomery, Newark, Ohio. What ever you do, do it now, a little later it may be too late.

CONSTITUTION SHOULD BE PURELY ORGANIC

The people of Ohio are watching the sessions of the Constitutional convention with an interest seldom equalled. And as the convention proceeds there is daily becoming more apparent a new danger, one that will make the constitution almost certain of defeat if carried out. It lies in the multiplicity of the propositions considered.

To date two hundred proposals have been dumped into the hoppers. More are coming in. They seem to cover every phase of legislative function. The delegates do not seem to realize fully that this body was assembled to frame an organic or basic law—not to usurp the functions of the legislature.

The old conception of a Constitution is still sound. Our forefathers held that a Constitution should be as brief as possible, and should contain only the broad, general provisions under which the public interests would best be conserved by the subsequent legislative enactment of needed laws.

The license proposition now facing the convention, designed to be submitted separately to the people for ratification or rejection, should be considered with special care in this regard. What the people of the state are demanding is a license clause that

will enable them to work out, through their legislature, a system of license regulation for those districts where the saloon is permitted to exist. Those who believe that the solution of the saloon problem lies in strict regulation—and they are in a big majority in this state—are asking only for the organic law basis for their work.

The plan of certain opponents of license to defeat the proposition has recently been plainly developed. They are seeking to tack on to the provision to be submitted numerous definite restrictions—matters which, from the stand point of plain common sense, should be left to the Legislature for action in case the organic proposal is adopted by the people.

These opponents of license are in such a minority in the state that they should not be afforded opportunity to defeat the will of the majority by means they may undertake.

The delegates to the Constitutional Convention should remember that they are not legislators, and that the people should be given the fullest and fairest opportunity to settle this vexed question in their organic law at the ballot box, so that this great commonwealth shall cease to be the great hotbed of agitation and unsettlement of any state in the Union.

WHAT WE LIKE TO KNOW

THE TIMBLE.
The derivation of "timble" is from the manufacture of the timble, which the Germans call finger-hut (finger-hat) was introduced into England from Holland in 1855 by John Soaring. This event took place in the reign of William III.
A silver timble is a very small and apparently insignificant object; and yet it takes more than 2 men, to say nothing of the intricate and therefore expensive machinery, to produce one.

THE HIRED HAND.

Oh, winter has its joys and charms, frosted pail; and Bossy bids him on as I remarked before; we do not heed the storm's alarms, its fury or its roar, when by the fire we sit and drowse, and suck a briar's stem; but oh, the man who milks the cows at 5 o'clock A. M. The hired hand leaves his cheerful couch before the rooster crows; what wonder that he has a grouse as he puts on his clothes? They're colder than the law allows, with ice along each hem; and he must go and milk the cows at 5 o'clock A. M. Down to the arctic barn he goes, and packs his

To Discourage Lynchers.

(Zanesville Courier.)
With the view of fixing responsibility on the community and discouraging mob murders a member of the Maryland Legislature, having in mind the recent Baltimore lynching, has introduced a bill which he thinks supplies the want. He would make mob murder prima facie evidence of dereliction of duty on the part of the sheriff of the county and the chief of police officer of the community and cause for their removal by the governor. In addition the bill would require the community to pay to the family of the mob's victim \$5,000 damages.

The measure is good so far as it goes but it fails to provide anything which promises to act as a marked deterrent on the lynchers themselves. The men who compose a mob do not care what disgrace befalls the sheriff and the chief of police. The penalty which the community must pay and the added burden on the taxpayers does not daunt them since lynchers and those who resort to other mob violence are seldom if ever taxpayers.

Of course the Maryland legislator's plan would make police officers more alert and the better class of citizens more determined in their demand for law enforcement, but he should go further. Every man who joins in a mob should be deemed individually guilty of that mob's lawless deed. If he be no more than a spectator he has given the leaders the encouragement of his presence and thus aided in the nefarious work done. Punish the officials who permit mob violence, punish the community in which mobs operate, but do not let the members of the mob escape. In this regard a valued precedent has been established in the Etherington case at Newark.

Larry Langdon Comedian.

Larry Langdon, who was leader of the Republican minority in the 1911 session of the Ohio general assembly, displayed exceptional talent for comedy work Saturday evening when he addressed the Buckeye Republican club of Columbus, in the interest of President Taft.

The audience must have enjoyed Langdon's utterances. They were exceptionally funny. Really, such a peroration as Mr. Langdon delivered to that Republican club in the capitol city of Ohio, should have been made before the footlights in a theatre, and an admission fee should have been charged.

"Republicans passed all the laws for which the Harmon administration is taking credit," Mr. Langdon was quoted. Maybe Mr. Langdon intended to be funny. If that was so, he certainly succeeded. Fortunately, indeed, were those privileged to hear Mr. Langdon.

Maybe Mr. Langdon forgot that only 49 Republicans occupied seats in the house of representatives during the 1911 legislative session. It may also be that Mr. Langdon forgot that it took 60 votes to enact a measure in the house. There were only 15 Republicans in the senate during this session, and that number was three short of the constitutional majority. Maybe Mr. Langdon also forgot that, and it maybe that having forgotten all these things he was in earnest.

If his memory was so poor as all that, he will do President Taft's cause no good, and will only make himself ridiculous should he continue to make such assertions.

The Democratic legislature of 1911 enacted 17 big progressive measures, and Governor Harmon advocated all of them. These laws represented reforms that the people of Ohio had long ago been fighting for, and which were denied by Republican state administrations.

Republicans in control of the legislative and executive branches of the state government, for many years, refused to give the people these reforms than Mr. Langdon complains Democrats misappropriated when they took unto themselves the credit for placing them on the statute books.

Mr. Langdon would have the people believe that Republicans, when in the minority in the general assembly and without sufficient votes therein to enact measures, really put through bills that they killed when they were in absolute control.

Such a statement is both ridiculous and funny. Better hire theatres for your next speeches, Mr. Langdon.

Some people have such a horror of being looked down upon that they never look up to others.

FINE MEETING OF DEMOCRATIC CLUB FRIDAY EVENING

The regular monthly meeting of the Licking County Democratic club was held Friday evening in the club rooms on West Main street, and those who failed to turn out missed a treat. In the absence of President Morton, who was unable to be present on account of illness, Frank T. Mercer presided and, Attorney J. Howard Jones delivered a stirring talk, his remarks being applauded by the audience. Those meetings are held on the first Friday night of each month. This club is one of the most potent forces of the Democratic party in the county and all Democrats are urged to attend its meetings.

BOOSTER TELLS WHY JOIN THE BOARD OF TRADE

(Communicated.)
The Board of Trade is doing splendid work and its efforts should have the commendation and support of all good citizens.

What is proposed and what is performed by the Board of Trade will depend in a great measure upon what each individual is willing to do toward making this city a better place in which to live and do business.

I take for granted your recognition of the fact that you owe something to the city and community for the many privileges and advantages that you enjoy. What are you doing and what have you done in return for that which you have received? Think it over, be honest with yourself, in the answer.

Perchance without knowing it, you have been living selfishly and shifting to other shoulders civic burdens that you ought to share. You don't mean to do that for you have always been fair and willing to do your duty, asking no favor from anyone.

You have gone your way peaceably and quietly, worked hard, attended to your own business, voted sometimes, kicked off and held aloof from public affairs because you believed they did not personally concern you.

These things may make you a desirable citizen, but perhaps you will admit a very selfish one, for you have acted from personal motives with but little or no regard for the general welfare.

Competition between cities is just as strong and keen as between individuals, advocations or any other line of business. Therefore the city that would outstrip its competitors must show the greatest progress and put forth the strongest inducements for preferment.

Nobody wants to locate in a dead town or a town made up of selfish, narrow minded contentious citizens; and those who are so located are easily persuaded to remove to a more progressive community.

If we would go forward it becomes our business to show the outside world or the seeker after a home, a business or factory site that we do not belong to the latter class. This work can be accomplished only through the Board of Trade. The Board of Trade is our mouth piece, our advertisement, through which we speak to the discontented and dissatisfied of other towns and cities telling them that we have what they are looking for.

It is your duty to help this organization to become big enough and strong enough to put across the things that are necessary and that ought to be done to conserve what we have, and to attract what we need.

The day has gone by when a few leading citizens can constitute or be called a Board of Trade.

It takes numbers, it requires money and it demands enthusiasm to attract attention where competition is so strong and where the city that is strong and well advertised, what we want should go elsewhere.

What we need is the biggest Board of Trade in Business in Proportion to Population.

A few shouters of our merits won't be heard when so many are shouting for other cities. It's time for team work, and team work will win, if you will do your part.

If we are going to make others believe that Newark is the best town, you will have to believe it first. You will believe it when you begin to work for it, when you begin doing the things that will make it worthy of that belief. Then it won't take much effort to make others see it as you see it.

COL. HAMILTON

His Experience in the Army as
Well as in His Home.

Gallant Spanish-American Soldier Gives Praise to Peru-na.

Col. Arthur L. Hamilton, of the Seventh Ohio Volunteers, writes as follows:
"I have used Peru-na myself and in my family for the last seven years. I have already written you about the good results I experienced with your remedy during the Spanish-American War."
"My command used your Peru-na during our service in the Spanish-American War, and I will say this, that if the War Department records are consulted, it will be found that the casualties in my regiment were less than in any other regiment of the Army Corps while at Camps Alger, Meade and Bushnell. The total deaths in my regiment during the seven months' service were seven out of a total number of 1400. I, of course, cannot help but think Peru-na certainly was a great benefit to my command."

Cold Settled on Lungs.
Mr. Samuel McKinley, 1215 Grand Ave., Kansas City, Mo., writes: "I can honestly say I owe my life to Peru-na."

"Traveling from town to town, having to go in to all kinds of badly heated stores and buildings, sometimes standing up for hours at a time while playing my trade as auctioneer, it is only natural that I have colds frequently."

"Last December I contracted a severe case, which, through neglect on my part, settled on my lungs. When almost too late I began doctoring but, without avail, until I heard of Peru-na. It cured me, so I cannot praise it too highly."

Head and Nose.
Mr. W. J. Harper, Lehigh, Cleveland Co., Arkansas, writes: "I do not know how to express my thanks to you for the good you have done me in treating me for catarrh."

"I was a great sufferer from the effect of chronic catarrh of the head and nose. I was continually hawking and spitting and I had entirely lost my sense of smell. I had tried various remedies, but nothing did me any good."

"At last I tried Peru-na as a last resort, and I am thankful to say that after using ten bottles of Peru-na I am once more well of catarrh of the head and nose."

BANQUET OF DRUG CLERKS LAST EVENING

One of the most thoroughly enjoyable affairs socially of the past week, was the turkey banquet given by the members of the Retail Drug Clerks' association of Newark, on Friday evening. Arrangements had been making for the affair for some time. The committee on arrangements, composed of William H. Phillips, Arthur Barton and Stacy Conrad had spared no pains or effort in arranging for its success, and that they succeeded is evidenced by the fact that all who were present are loud in their praise of the excellence of the affair.

At 8:30 o'clock a goodly number of the members of the association met in the parlors of Kuster and company's restaurant, on the North Side, and whiled away most pleasantly the time until 10 o'clock, when all sat down to the banquet table, which was handsomely decorated with flowers and greenery.

At the conclusion of the banquet a number of short talks were made and along about the hour of midnight the happy crowd broke up and all left for their homes, expressing themselves as having had a most enjoyable time.

GRANVILLE

Granville, O., Feb. 2.—Mrs. Charles Harrison, residing about a mile and a half southwest of the village, sustained a severe fall while in the village Friday, badly spraining her left ankle. She was walking along Blin street, when she slipped and fell on the ice. Parties who had seen her fall assisted her to her feet and to her buggy which was nearby and she went to her home. Shortly after arriving home however, the pain became so severe that she called a physician, who attended to the injured member, and Friday night she was reported as resting quite comfortably.

A. R. Wright of Loudon street, has purchased the L. A. Austin property on Prospect street, and expects to occupy the house in the spring. R. E. Boothe, who has been living in the house for some time, has purchased property on Granville street, in Newark and will move to that place in the spring.

Miss Agnes Walsh, a charming and accomplished young woman of Dayton, O., who has been visiting friends in Granville and Newark for some days, left for her home on Friday, having had a most enjoyable visit.

At the Methodist church Sunday the pastor, the Rev. A. J. Hawk, will conduct the usual services. Sunday school will be held at 11 o'clock a. m.; Epworth League at 6 p. m.; subject of morning theme, "Personal Evangelism." Evening theme, "An Old-Time Saint."

Rev. and Mrs. H. H. Bawden have gone to Ellyria, O., where they will remain for a few months, and where the Rev. Mr. Bawden will fill the pulpit of the Baptist church of that place during the time he is here. This was Mr. Bawden's first charge after he graduated, and it was at the request of his old friends that he should supply the pulpit during the regular pastor's absence, he taking a trip abroad.

Mr. and Mrs. J. D. Freeman and son Clarence of Pomeroy, O., who have been visiting relatives and friends in Granville and vicinity during the past week, left Saturday for Columbus, where they will make a short visit with their daughter, Mrs. E. M. Lawrence before returning home.

Mrs. Thomas Morris, who has been the guest of her mother, Mrs. J. C. Malone for some time, has returned to her home in Cleveland.

Miss Rosa L. Kerr left Friday for California where she will spend the remainder of the winter. She was accompanied by her sister, Mrs. R. S. Colwell as far as Chicago.

Mrs. Sarah Dumbauld of Ottawa, O., after a short visit here, has gone to Tiffin, O., where she will spend a few weeks at the home of her son, Homer Dumbauld, before returning home.

The Choral society will hold its regular rehearsal on Monday evening at 7 o'clock.

On Monday evening, February 5, the regular monthly meeting of the Civic Improvement committee will be held at the home of Mrs. A. K. Follett on Broadway. At this meeting the annual election of officers will be held.

HAD SALT-RHEUM FOR MANY YEARS

Doctors Failed to Cure Him—Goodhair Soap Did the Work in Three Days.

"For a long time I have suffered and been afflicted with a breaking out on the back of my hands. The doctors called it salt rheum. My hands were in such an awful condition I was ashamed to have them seen, so I hid them away. I did not have a pair of old gloves on I would keep my hands in my pockets to prevent undue attention. Consulted several doctors and tried a number of remedies without any good results. Mr. J. I. Bolton of this city gave me two little samples of Goodhair Soap, requesting me to try it. The first application of the lather of this wonderful Soap gave me benefit and in three days time my hands were entirely well."

E. J. SOUTHWELL, Brant, Mich.

WHAT'S THE USE?
BY MISS HILDA WADDELL—ILLUSTRATED BY WALTER WELLMAN.
Brown worked real hard most all his life. And did good deeds and such. Well he died poor, so people said "He didn't mount to much."
But White got rich quick 'cause he knew The game just like a book. Though he was honest when he died They said he was a 'crook'.

Ask Your Doctor
It is impossible to be well, simply impossible, if the bowels are constipated. Waste products, poisonous substances, must be removed from the body at least once each day, or there will be trouble. Ask your doctor about Ayer's Pills, gently laxative, all vegetable. He knows why they act directly on the liver.

Daddy's Bedtime Story

Tommy Tries To Hurry Up the Summer Time

"LITTLE Tommy did not like winter very well," daddy began. "What a funny boy!" exclaimed the children. "Just think of the sledding and skating and sleighing! Didn't he care for that?"

"Oh, yes," replied daddy; "he liked the sport, but he did not care for the cold weather. He had bothered his little head a good deal trying to find out why it was cold in winter."

"Why," he said to himself, "in winter every one makes nice warm fires, and they burn and burn—heaps of them everywhere—and by and by that heats up the whole earth so nice and warm that it is summer again. Then the folks let all the fires go out, and it gets cold again, and there is more winter."

"This seemed a good way to answer the puzzling question of where summer and winter came from, and he ate his supper contentedly as he told his mother about it."

"The next day when he went to school the little boy met the janitor. He thought it might be a good thing to help summer along all he could. He knew that the big fire in the furnace at school was allowed to die down when school was over and the janitor went home."

"Won't you please make the fire burn all the time, Mr. Moore?" said the little boy. "Bless me," exclaimed the janitor, "'twould break me back to be shoveling night and day."

"All right, Mr. Moore; I'll come and help you, 'cause I want it to be summer soon."

"All right, sir," laughed Mr. Moore as they parted at the door of the school.

"When his class was dismissed that afternoon the little boy hurried down to the school basement. He opened the door of the furnace and peeped in. There was a good fire, but he picked up the big shovel as he had seen the janitor do. He could get only a few tumps of coal in on the fire at a time."

"It was more trouble than he thought it would be, and he sat down on the coal pile to rest. In a little while he put in some more coal and then some more. It was really very tiresome work."

"Then he heard voices. They were coming down into the basement. It was his mother and the teacher. His mother had waited for him to come home from school. When he did not come promptly she started to school to ask after him. The teacher had seen him go down the stairs to the basement. There they went to look for him."

"The teacher explained that it is the fire in the sun, not the earth fires, that brings summer, and Tommy went home peacefully."

THE HERPICIDE GIRLS KNOWS

While shopping the most annoying thing for me is to have someone try to sell me something "just as good" when I ask for Newbro's Herpicide. To be sure there are not many druggists who do this, but what few there are should know that such a policy will destroy the customer's confidence. When they try it on me, I never wait for the story, simply hunt a store where they will sell me what I want.

It is absurd for anyone to say that a preparation is as good as Herpicide. I don't think they believe it themselves. Every druggist knows that there is but one genuine, original dandruff germ destroyer and that is Newbro's Herpicide.

It keeps the head free from dandruff, prevents the hair from coming out and stops itching of the scalp. Herpicide is really a wonderful remedy which does just what you want and expect it to do.

One dollar size bottles are guaranteed. Sold by all druggists. Applications at good barber shops. Send 10c in postage for a sample to The Herpicide Co., Dept. R., Detroit, Mich. W. A. Erman & Son, Special Agents.

WHY ARE THESE MEN GIVING TIME TO THIS CITY?

(By Chalmers Lowell Pannock.)
The Newark business men who have agreed to give their time to increasing the Board of Trade membership are doing a great service for Newark and every citizen and property owner in Newark.

They are giving their time and energy gratis because they believe in Newark's future—in Newark's opportunity to become a greater city.

There is just as much benefit in the results of this campaign for you as there is for any man who is out working for a larger membership.

Mr. Man, when a sum of membership workers all upon you next Tuesday and ask you to join with them in BOOSTING Newark—kindly remember there is no reason why you should not be doing the same thing they are doing, getting more men to work for Newark.

They are conferring a favor upon you in asking you to join with them in this great civic movement. If you don't receive them gladly, and show a little appreciation for their efforts who are working against your own interests and interfering with progress in Newark.

Every man who leaves his business to ask you and other citizens to join an organization which stands only for Newark's ADVANCEMENT, is a mighty good fellow for the town.

Remember there's just as much IN IT FOR YOU as there is for him, and that's a better town.

He is working without thought of personal profit, without desire of reward. His work is for the benefit of every citizen of Newark. The value of the time he may give to boosting the membership of Newark's Board of Trade cannot be estimated in dollars and cents. It is the kind of service that money cannot buy.

These men who are calling upon you and other Newark men, are asking only for co-operation and encouragement in pushing Newark forward. You cannot afford to allow a membership squad to leave your place of business without signing a membership card.

If you are in earnest about making Newark a BIGGER, BETTER AND BUSIER CITY you'll sign without much argument or wrangling.

You've got to take off your hat to your fellow citizens who are broad enough, liberal enough and generous enough, to get out on the street and hustle to help the town, don't you?

Well, be sure you DO take off your hat to them. Also give them the glad hand when they visit you, and with it give them your membership.

SAGE RESTORES GRAY HAIR TO NATURAL COLOR

The old idea of using sage for darkening the hair is again coming in vogue. Our grandmothers used to have dark, glossy hair at the age of seventy-five, while our mothers have white hair before they are fifty. Our grandmothers used to make a "sage tea" and apply it to their hair. The tea made their hair soft and glossy, and gradually restored the natural color.

Objection to using such a preparation was the trouble of making it especially as it had to be made every two or three days, on account of souring quickly. This objection has been overcome, and by asking almost any first class druggist for Wyeth's Sage and Sulphur Hair Remedy the public can get a superior preparation of sage, with the admixture of sulphur, another valuable remedy for hair and scalp troubles. Daily use of this preparation will not only quickly restore the color of the hair, but will also stop the hair from falling out and make it grow.

Get a bottle from your druggist today. Use it and see for yourself how quickly dandruff goes and gray hairs vanish.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

When You Think

Of the pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. While in general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from pain. It establishes regularity, subdues inflammation, heals ulceration and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter, free. All correspondence strictly private and absolutely confidential. Write without fear and without fee to World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

If you want a book that tells all about women's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in paper covers. In handsome cloth-binding, 31 stamps.

TICKETS FOR ELK MINSTREL GOING FAST

One of the big hits of the forthcoming Elk Minstrel, which is to be produced at the Auditorium on Monday evening, Feb. 19, will be the eight funny end men. Their matches, drills, dancing and jokes is bound to make a hit.

On one of the ends will be seen the smiling countenance of Rollin Baird, son of genial John Baird, the well known horseman and blacksmith. Rollin is developing into a regular Lew Dockstader and his stuff is all new and up to date. A number of his friends from the Everett Bottle plant will be present on the evening of the minstrel to give him the glad hand.

ROLLIN BAIRD.

The boys are practicing faithfully and an excellent production is assured. The tickets are going rapidly and the house will undoubtedly be sold out. The seat reservation will open Friday, Feb. 16, and there will be a big line up early at the box office.

All tickets disposed of by solicitors can be reserved at any time after the seats go on sale. No favoritism will be shown. The first persons in the line-up, of course, will have the choice of seats.

Elk delegations from Zanesville, Coshocton, Columbus, Mt. Vernon, Lancaster and Wheeling will be present on the night of the show. The big street parade will occur at 11:30 a. m.

DYSPEPSIA IS RELIEVED IN FIVE MINUTES

You can eat anything your stomach craves without fear of indigestion or dyspepsia, or that your food will ferment or sour on your stomach, if you will take a little Diaphepsin occasionally.

Your meals will taste good, and anything you eat will be digested; nothing can ferment or turn into acid or poison or stomach gas, which causes belching, flatulency, a feeling of fullness after eating, nausea, indigestion (like a lump of lead in stomach), biliousness, heartburn, water brash, pain in stomach and intestines or other symptoms.

Headaches from the stomach are absolutely unknown where this effective remedy is used. Diaphepsin really does all the work of a hearty stomach. It digests your meals when your stomach cant. A single dose will digest all the food you eat and leave nothing to ferment or sour and upset the stomach.

Get a large 50-cent case of Pape's Diaphepsin from your druggist and start taking now, and in a little while you will actually brag about your healthy, strong stomach, for you then can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and Gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

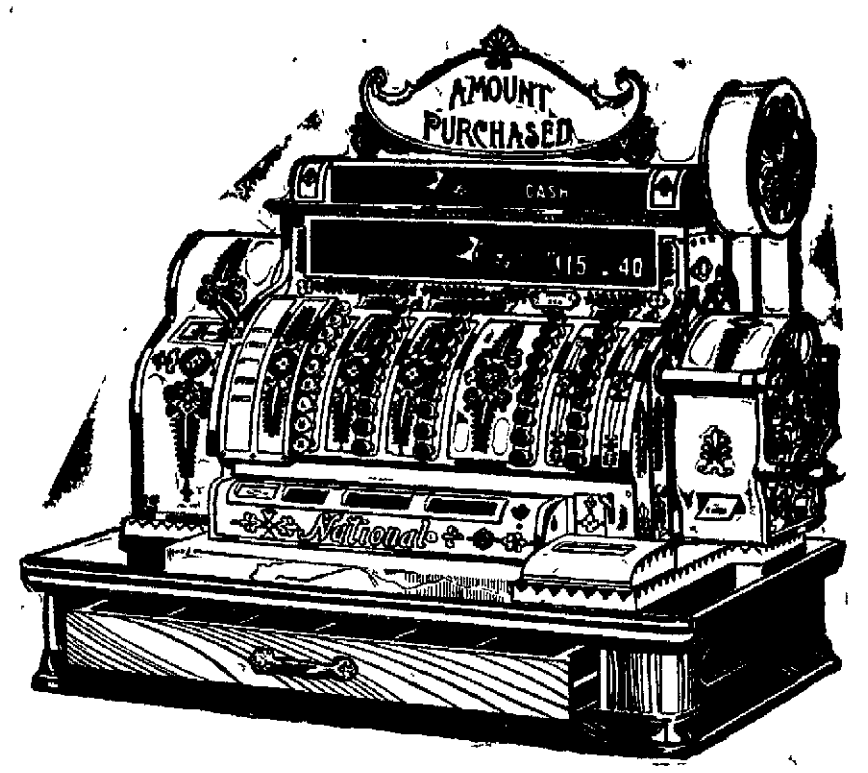

Should you at this moment be suffering from indigestion or any stomach disorder, you can surely get relief within five minutes.

AMUSEMENTS

Press Agent Says:

The Town Marshal.

Can one evil mind poison a whole household? Is the human brain capable of producing disastrous effects on a household by adverse suggestive thoughts? Do we realize adequately how our mental attitude influences our lives and the lives of those about us? All these questions are asked in "The Town Marshal," a new play from the pen of Lem B. Parker and produced by O. E. Wee. And the answer? Well, the play is the answer. For one-half its course is built on a condition of affairs in a typical American family of today. The inner life of each member is shown and there is the subtle feeling produced that all is not right, that one mind is not in full accord with the peace and happiness of that household. The crash comes. Then "The Town Marshal" shows his hand and solves to mystery and brings each member of the little family circle back to peace and happiness. At the Auditorium tonight.

WILL GIVE \$500 TO SICK OF NEWARK AND VICINITY

Indiana Scientist Who Originated the Now Famous "Home Treatment" Offers \$1.00 Treatment Free to Sick and Ailing.

In order that every reader of the Advocate who needs treatment may have opportunity to test this celebrated medicine, the now famous Indiana scientist has come to the front with an offer to give absolutely free a full size \$1.00 package to five hundred persons to prove the wonderful claims which have been made for it. In making this offer the scientist said "I know that there are many people who have been suffering for years with some chronic disease and many of them have spent large sums of money seeking a cure. I know that these people hesitate about investing money in medicine because they have despaired of ever getting well. Thousands have told me that story and many thousands of the same people have told me afterwards that my treatment is absolute talk about my treatment is absolute true. I want to prove to a limited number—no matter what the disease, no matter how long they may have suffered, no matter how blue and discouraged—that my treatment really and actually does accomplish the wonderful results that have been reported."

Any reader of the Advocate who will try this extraordinary medicine that has created so much excitement by its cures can obtain absolutely free a full \$1.00 treatment by simply filling in the coupon below or writing a letter describing their case in their own words, if they prefer, and mailing it today to James W. Kidd, Fort Wayne, Indiana. No money need be sent and no charge of any kind will be made.

As this offer is limited, you should write at once, in order to be sure to receive your free treatment.

PEOPLE'S ELECTRICAL PAGE

LARGE MAGNET DRAWS SPLINTERS FROM EYE

Swiss Physician Uses Electrical Method in Place of Knife.

Electric magnets are now used by physicians to remove foreign substances from the eyeball. A Swiss oculist, Dr. O. Hagib, professor at Zurich University, used in his work one of the most powerful eye magnets ever constructed. It is what is known as a bell magnet, only one pole being used to extract fragments of magnetic substances from the eyeball.

The magnet becomes strongly attractive only when a current of electricity is passed through the coils of wire surrounding its core. The pedal arrangement opens and closes the circuit to this magnetizing current, and thus, being operated by the foot, leaves the doctor's hands free for manipulation of the patient's head.

Of even more importance, this arrangement dispenses with the necessity of removing the magnet from the eye for discontinuing its action. Even with the best suspension imaginable, the heavy mass formed by the magnet and its windings cannot possibly be removed quick enough to avoid involuntary displacement of fragments enclosed in the eye, and, with a large fragment strongly imbedded, the eye might be almost pulled from the socket if some means were not provided for quickly turning off the current.

ELECTRIC FLOWERS TRIM HAT.

Miniature Lamps Used To Aid Modern Millinery.

Flowers have ever been one of woman's means of adding to her attractiveness, and their employment upon millinery creations are more or less common according to the prevailing style.

Showing real genius in adaptation a milliner has suggested and carried out the idea of trimming bonnets or hats for evening wear with illuminated flowers. These artificial designs of flowers and foliage, with tiny electric bulbs hidden within are true to Nature as skill can make them and are readily applied to this novel use.

An electric battery concealed in the crown of the hat, and a small

hidden switch enables the wearer to display at pleasure her sensational though by no means flashy head covering.

ERASING BY ELECTRICITY.

One of the most tiresome and tedious tasks in drawing room practice is to erase parts or drawings or tracings in building a machine changes are often made, making it necessary to change the drawings.

The article referred to is an eraser attached to a small motor, which is a great convenience to a draftsman. A small toy motor driven by one or two ordinary dry batteries, can be used for the purpose.

WARSHIPS HAVE WIRELESS.

The Turkish wireless telegraphy and controlled from Constantinople.

BATTLE WITH ELECTRIC SIGNS.

In order to offset a large electric sign maintained by a nearby brewery the Union Gospel Mission, Washington, D. C., has had erected on its building a large electric display, 90 x 26 feet in size. Above is a star and below this line "Jesus, the Light of the World." The two signs are within a half block of each other. The Mission sign flashes, and about 750 lamps are used.

BOYS DARED TO TOUCH WIRE

Should Be Warned Never to Go Near Hanging Wires.

E. D. Smith, traveling salesman for a Cleveland firm, tells a story of an incident which occurred in Columbus last week.

"I was going along the street and came across a crowd of school children standing around a broken wire which hung from a pole. One child was daring his companion to touch the wire, which was charged enough to give a slight shock. Fortunately the ground was very dry, or the results would have been serious."

Children should be repeatedly warned to leave hanging wires strictly alone. They may look very harmless and still be charged with enough current to give a bad burn or shock.

Whenever a wire is down a telephone call to the telephone or lighting company will bring a man immediately.

HERE IS REMEDY FOR COLD FEET OR HANDS

Automobilists Need No Longer Suffer if Electrical Devices Are Used.

Many are the comforts of the automobilists these cold days.

If his hands are cold he may obtain a pair of gloves which are heated by electricity, similar to an ordinary heating pad. The current is supplied from the battery of either a gasoline or an electric machine.

If his feet are cold, an electric foot warmer will turn the trick. This electric foot warmer consists of a mass of soapstone in which is imbedded electric wires. The device is connected to the house lighting system until heated, when it is placed in the automobile. The soapstone will retain the heat for three or four hours.

NEWARK ELECTRICAL NOTES.

One of the newest and most elaborate systems of electric lighting is being installed in the New Kresge Five and Ten Cent Store, in the Arcade.

A fine vertical sign, with the word "Bazaar" is being placed at Robert White's cafe.

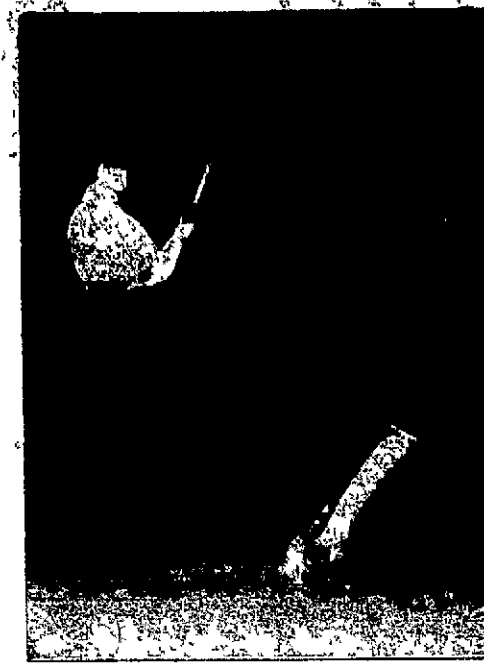

The Franklin National Bank and the Home Building and Loan Association are both about to install handsome new electric signs.

The Electrical National Cash Registers are becoming very popular with business houses and Geo. C. Vail, the National Cash Register man, is even busier than usual installing some of their best in quite a number of Newark business places.

FOG SIGNALS BY WIRELESS.

Many of the French lighthouses are being equipped with wireless warnings for use during fogs.

Collect Your Dust Do Not Scatter It

Our "DUPLIX" Electric Suction Cleaner diminishes the danger of infectious diseases by preventing the spread of micro-organisms in dust and dirt. It makes the home dustless and sanitary all the time. It does away with the greater part of the

semi-annual house-cleaning and thus this seasonal ordeal ceases to have its terrors for the users of our "DUPLIX." It banishes bodily the old dust rag and dust bloom which are branded as the most dangerous disease breeders known to medical science. The "DUPLIX" Electric Suction Cleaner has attachments for cleaning walls, curtains, furniture and in fact every conceivable thing about the household.

We also manufacture the famous U. S. Hand Vacuum Cleaner over one hundred of which have been sold in Newark alone. Phone for free demonstration of either of these Cleaners.

CONG. ASHBROOK INSPECTS THE OVER-SEA RAILROAD AT KEY WEST

Following is an account of the Congressional trip recently taken by Congressman Ashbrook through Florida, during which he inspected the great "Over-sea" railroad at Key West, said to be one of the greatest engineering feats ever attempted and successfully carried out. His observations in Florida made during his trip were published in the Johnstown Independent, and on account of the great general interest of the article it is reproduced in the Advocate.

In days gone by I have contributed largely to the columns of the Independent of my travels but of late years both travel and correspondence have necessarily diminished somewhat. I just returned here yesterday from a most delightful eight days' trip to the southland, and believing my friends at home might find some enjoyment in a letter telling about it, prompts me to contribute once more.

A resolution was passed at the Extra Session of Congress last July authorizing a committee to represent the Congress to attend the celebration of the completion of the "over-sea" line to Key West. The Rivers and Harbors, the Naval and Military Affairs committees were designated to attend the same. I am not a member of either of these three committees but had the good fortune to be invited to fill a vacancy on one of the committees and quickly accepted. I contracted a cold and cough, at the K. of P. banquet on December 28, which had stubbornly clung to me, and I believed a sniff of Florida weather would be beneficial, as it was.

On January 19th, at 2:30 p. m. our special train of eight Pullmans and a diner steamed out of the great terminal station with fifty-six Senators and Representatives aboard, also Brig. Gen. Robert Shaw Oliver, the personal representative of the President; Gen. W. H. Bixby, chief of engineers; Major William Lassiter, U. S. A. aide; Rear Admiral Fletcher and Cone, and representatives of the French and Italian governments and the republics of Brazil and Guatemala. To make a trip of 2600 miles without mishap, accident or injury and return home on schedule time is a result that the Southern Ry., the Atlantic Coast Lines, and the Florida East Coast Lines may well be proud.

Our first stop was at Savannah, Ga., the following morning, a quick trip, much of which was made in less than a mile per minute. Savannah is a splendid city of about 75,000. It has a fine harbor. My first trip to the south was about eighteen years ago and I was forcibly struck all through the south on my latest trip through of the many great changes. The cities of the south have taken on northern enterprise and methods. That old time quiet and easy indifference, lack of energy and thrift is no more. The Yankees are there developing the great possibilities of that long neglected and important portion of our great Nation. We might add that the assimilation of the pushing forward North with the gentlemanly indifference of the South has proved a happy combination with none of the good qualities of either lost or missing. The reconstruction of the south is still going on but not for its lack of loyalty or the adjudication of political conditions, but the development and progress of a hitherto satisfied and content people, the cultivation of a fertile soil and the untold riches of mine and forest. The cotton fields of the south have long supplied the world and the south will soon be able to feed it as well, while manufacturing of all kinds seems southward bent.

After a splendid breakfast at the De Soto hotel and a delightful ride over the city, our party left Savannah at 9:30 a. m., most favorably impressed, for Jacksonville, Florida, arriving in time for luncheon. Our train was shortly taken to Mayport to inspect the jetty and we returned by boat some twenty miles up the St. Johns river to Jacksonville, the home of Frank Clark, one of the most popular members of Congress. Jacksonville is about the same in population as Savannah and very much like it in many respects, both splendid cities with great futures. An elegant banquet at the Windsor hotel that night with plenty of speechmaking sent us to bed shortly after the cock first crowed, and I find that they crowd in the same old way and time where ever you go. The next morning a two hours automobile ride about the city was thoroughly enjoyed. Jacksonville is about the first city at which the tourists stop as they continue to shift south and likewise the last on their return. We found the weather there as pleasant on January 20th as on May 20th in Ohio.

Our next stop was at St. Augustine which is about forty miles below Jacksonville, where we entered real Florida. Just 400 years ago, 1512, Ponce de Leon landed here in search of the "Fountain of Youth" and this therefore is the oldest settlement in America. Every school boy is familiar with this settlement and I will not rehearse. It is today the Pasadena

Palm hotel and a two hours ride next morning into the country to inspect the grape fruit and orange groves. Florida has the best highways I ever saw, built from coral limestone. It is a paradise for automobile drivers.

We made a six hour stop at Fort Lauderdale to inspect the canals that now penetrate the Everglades. A wonderful work is now progressing and near completion in the reclaiming of this great tract of waste land. I recall in my old geography learning that the everglades of Florida was an impenetrable swamp, and so it has remained all of these ages but ten years from now will see the greatest transformation in our country of these fertile swamp lands. The State sold one million acres at \$2 per acre and with the proceeds is digging canals through these swamps. We had a boat ride of fifteen miles up one of the canals and the sun burned my face as red as it was last July when I raked hay on the old farm. All along the canals the land is already being cultivated. We stopped to see the crating of tomatoes, cucumbers, string beans, strawberries, and new potatoes on January 26th. These lands are said to be more fertile than the famed valley of the river Nile, and in my opinion will become the most valuable farm possessions in the south, for truck raising, orange, grape fruit and other citrus fruits. Surely the Almighty created everything for some good and useful purpose and the ingenuity of man is fast developing and reclaiming all these things hitherto considered worthless to the glory of the Creator and the good of created.

The first white child ever born in the Everglades was four days old when exhibited to us, way up the canal housed in a shanty, unpretentious shack. What the child is spared will live to see will read like fiction. So be it. There is still a considerable remnant of the Seminole Indians scattered all through Florida.

The good people of Ft. Lauderdale kidnapped our party. We were billed for a two hours stop only but they got us out in the Everglades, made us eat a fine home cooked fried chicken dinner and fresh picked strawberries in an orange grove, with the branches laden with oranges touching the tables and otherwise showered us with considerable courtesies. Mrs. Flagler had arranged a garden party at her magnificent home at Palm Beach but we arrived there too late to accept the hospitality of this delightful lady destined to become one of the richest women in the world.

After dinner at the Royal Poinciana hotel we invaded the privacy of the Flagler Palace one of the finest in the world, and were received with the ease and simplicity of an old home friend. Everything in that home that wealth can buy and so far as I know there is found there its share of happiness, but for me, I covet none and mine, and I have all I want. Mr. Multimillionaire has no more if as much. In very many respects riches are the greatest of all curses but so far as my knowledge extends few rich men are more blessed in their possessions than Henry M. Flagler, in honor and respect him for all the good that he has done or may do but would remind him that our accountabilities are justly circumscribed, not equally, but proportionate to our talents and opportunities.

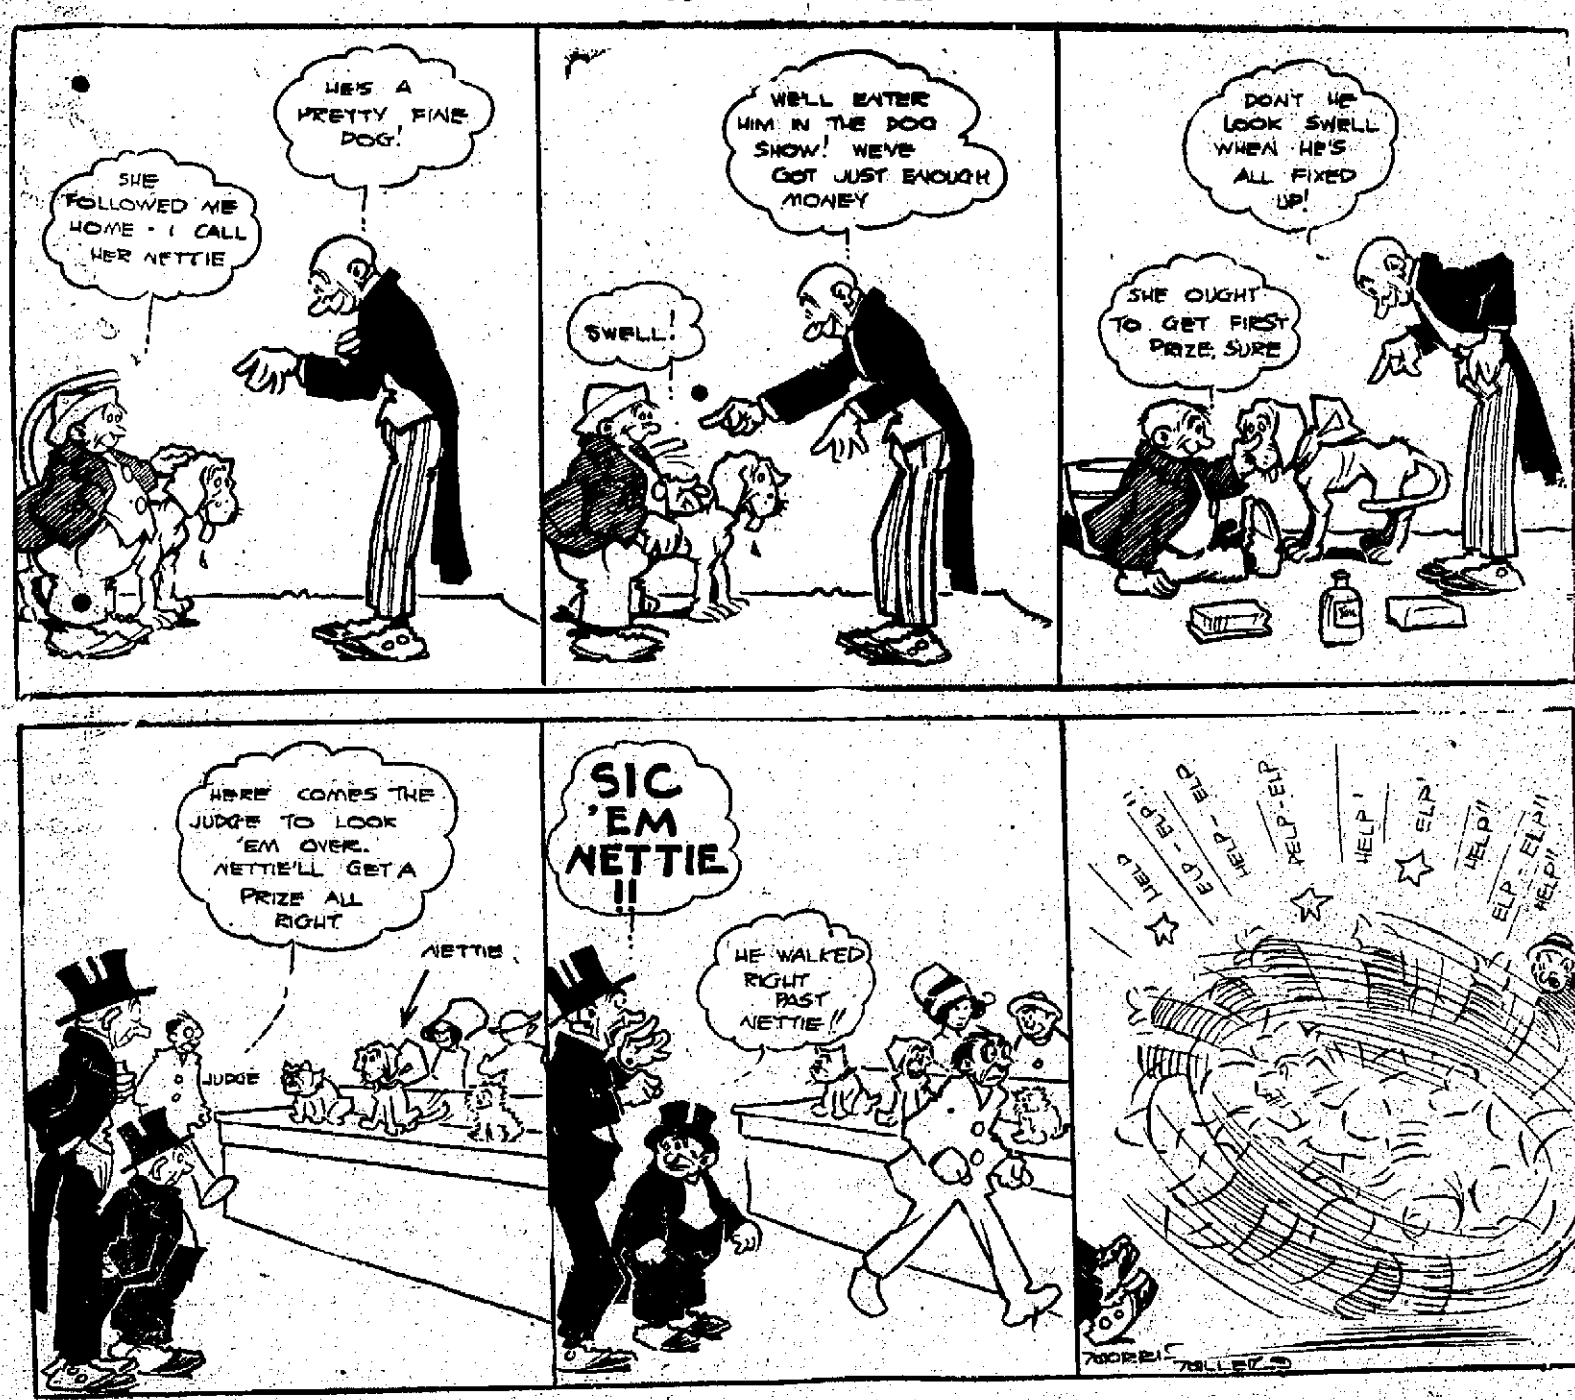

Our last stop was made at Daytona Friday morning. We had breakfast at the Clarendon at Sea Breeze, overlooking the ocean. This is a most delightful place. For thirty miles or more, the beach is as smooth as hard here as macadam and is an elegant place for automobile and racing of all kinds.

We are off for Washington and a 24-hours ride separates pleasure from duty. This was one of the most delightful short trips of my life. I have never before seriously thought it important or necessary that one should "go south for the winter," but I am now convinced that those who have reached the autumn of life and are situated so they can afford the trappings of the biting cold and rigor of the north to balmy breezes, flowers, singing birds, strawberries and the like will lengthen their days and find great pleasure in the summerland.

Interest on time deposits be required to pay a tax on such deposits.
In explanation of this idea, Redington stated that the banks of his county carried \$12,000,000 on time deposits, when the total amount of personal property on the tax duplicate of Lorain county did not amount to one-tenth of this sum.
Redington explained that the banks could be required to pay the tax on time deposits and could deduct the amount of the tax from the interest paid the depositors. He said that he believed the burden of taxation would come upon the depositor in any event.
Members of the taxation committee of the convention asserted that the majority of the proposals which have been referred to that committee provided for a classification in some particular, despite the declarations of most of the authors of the proposals that they did not favor classification.
Delegates of all opinions today asserted that they were dissatisfied with the long discussion arising from the question of reporting and publishing debates and the fight against telephone attendants in the smoking room.
Solomon Johnson of Williams county stated that he favored the

THREE YEARS OF MISERY

Mrs. Burnside Escaped an Operation by Taking Lydia E. Pinkham's Vegetable Compound.

Mahoningtown, Pa. "For three years I suffered untold misery every month, and had to stay in bed the first two or three days. I also had a displacement and other ailments peculiar to women. I became so weak and run down I could scarcely walk across the floor. The doctor told me I would never be well unless I would undergo an operation, but I was advised by my mother to take Lydia E. Pinkham's Vegetable Compound and after I had taken four bottles I am strong and well. I have got others to take your medicine with the same good results and they can't say enough for it."—Mrs. J. A. BURNSIDE, Mahoningtown, Pa.
Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound.
Women who suffer from those distressing ills should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.
If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

INVESTMENTS

WHAT TO BUY.
The problem of what securities to buy can almost always be elucidated by a thorough study of the essential qualities which are possessed to a more or less degree by all investments. These qualities are:

1. Safety of principal.
2. Rate of income.
3. Convertibility into cash.
4. Prospect of appreciation in price.
5. Stability of the market price, or the likelihood of maintaining the integrity of the original investment.

The Newark Telephone Company's 6 per cent preferred stock contains all of these qualities, namely: Absolute Safety, a Good Income, and an Active Market.

HUNDREDS OF MEN WANTED TO WORK

SLEDGE HAMMER TALK NO. 6.

By CHALMERS LOWELL PANCOAST.

Yes—to Work for Newark.
There's money in it for everybody.
What greater ambition could you have than to work for your town?
You've got to do it.
Newark isn't running neck-to-neck with other towns.
It's your duty to join the ranks and do something to make this town grow—make it run ahead of the others.

It can do it—Newark has all the qualifications to make a winner.
MEN of Newark—you've got to get together.
Lay aside Laziness, Jealousies, Prejudice, and work like real men for the welfare of the CITY.
What's wrong here, anyway? What's holding you back?
Some of you Newarkites seem to have no faith in yourself or your neighbors. Nothing is "No Use."
To feel that way is a crime to yourself and the town.
You've got to remove that feeling.
HOW?
Cultivate the grace of Friendship, the virtue of "Forget It," and the advantage of "Help-One-Another."
Make the spirit of Progress apparent in this town.
"Teamwork" must become your slogan.
"Harmony" must be the great issue in Newark.
Make your Creed "Newark MUST Grow."
The only way to live up to that creed is to become an active member of the Newark Board of Trade and work shoulder to shoulder with the men who are giving their time and energy to Newark.

HOW LICKING COUNTY MAY GET PUBLIC COUNTY LIBRARY

(Communicated.)
There have been many inquiries concerning the proposition submitted to the county commissioners for the establishment of a county public library, and as president of the Newark City Library, I am submitting herewith to you a statement of what is proposed and the occasion for the proposition, which statement I wish you would publish so that your readers may be familiar with the proposition.

We have had a public library in the city of Newark for about three and a half years, the salary for the librarian having been paid by the city of Newark and other expenses having been borne almost altogether by private subscription, and we now have about 5,000 volumes in the library. This library was and is intended essentially for the people of the city of Newark, but it is being used by the residents of other portions of the county and we have gladly afforded to any residents of the county access to this library and have put it so far as possible at the disposal of every citizen of the county.

The laws of Ohio provide that the County Commissioners may receive a bequest or gift of a building or property wherewith to construct a building for a county public library and that they may accept the gift of the library or its use either for a term of years or permanently and may be agreed upon behalf of such county to provide that a library association or organization may contract with the commissioners for the use thereof by the people of such county. They further provide that the county accepting such bequest or gift or entering into such agreement, shall faithfully maintain and provide such library, and at their June session the commissioners may levy a tax not to exceed a half mill on each dollar of the taxable property of the county. It is under these statutes that we propose to act, and the proposition in detail is this:

The Newark Board of Trade or the citizens of Newark will provide a site for the building and the building may be obtained from Mr. Carnegie if the arrangement for its maintenance is assured.

There would be no occasion for a levy of more than one-tenth of a mill, which would provide about \$8000 annually, and with this kind of an agreement a building could be obtained from Mr. Carnegie which would cost at least \$50,000.

If such a library were established, the main library would, of course, be in Newark, and branches would be established in different townships of the county and books could, if desired, be sent to the school houses in the different districts, and the fund would be large enough to make available any books that would be reasonably desired by any resident of the county, and every resident of the county could have the use of such books by applying to the main library in Newark or by having them sent to his

WORTH READING

Today's Sledge-Hammer Talk No. 6, "Hundreds of Men Wanted to Work" is perhaps the best of the Pencoast series yet published. It is the "real thing." If you don't read The Advocate from first page to last page tonight read Talk No. 6 anyway. After you read it do one of 3 things: (1) send the marked paper to some Newark citizen who should have the facts brought to his attention; (2) clip it out and tack it up where other people will read it; (3) paste it upon cardboard and display it in your window or your show case. Remember next Tuesday will be membership day in the Board of Trade.

CITY'S LEADING BUSINESS MEN

The Advocate always takes special interest in the man who is forging to the front in the business world. Such a man is Charles F. Schaus, the well known West Main street grocer. Mr. Schaus was born and reared in Muskingum county, but early in life followed Horace Greeley's advice and went west, engaging in silver mining in once booming silver town of Virginia City, Nev. After the mines failed to pay he came to Newark and engaged in the carpenter business, being a skilled mechanic and super-

intended the work on a number of the best buildings constructed in Newark, including the handsome Hibbert & Schaus building, the Children's Home and the Licking County Jail. Sixteen years ago on the last of March, he engaged in the grocery business, and from a small beginning in one of the rooms in the Woolson building, on North Third street, rapidly forged to the front in the business world of the city. He soon moved his store to the room in the old opera house, now occupied by Eugene Schlegel, and then to his present location, where he has been for the last 11 years, and never neglects an opportunity to boost the town in which he is doing business.

CROUP ENDS LIFE

Many Children Die of Croup Every Year Before a Doctor Can Be Summoned.

Parents of Children should be prepared at all times for a spasm of croup.

Keep in the house a remedy that will give instant relief and keep the child from choking until the arrival of the physician.

Get a 50 cent bottle of HYOMEL today and in case of an attack of croup pour 20 drops into a kitchen bowl of boiling water. Hold the child's head over the bowl so that it can breathe the soothing, penetrating vapor that arises. In the meantime send for a doctor.

This treatment has saved the lives of many children and is a precaution that all parents should promptly take. HYOMEL is sold by Evans' Drug Store and druggists everywhere and is guaranteed for croup, calarrh, asthma and bronchitis.
